BATTLEFORD, June 7.

The C.P.R. land department has appointed two inspectors to examine all lands in the country sold by the company.

British Columbia rivers are still rising and it is feared greater destruction of property is yet to come than has already occurred.

A mass meeting of Toronto business men urged the Dominion government to deepen the canals and construct a railway to Hudson's Bay.

According to the C.P.R. summer time table the through trains east of Moose Jaw will be cut off one day, and the local express will only run to Virden.

Baie St. Paul, Que., is in imminent danger of extinction by flood and landslide. Farmers were only able to save very little of their effects and that at the risk of their lives. The greatest anxiety prevails. The loss is already very heavy.

OTTAWA, June 6, 1894.

A reform convention held here to-night nominated Hon. H. C. Bronson and Ald. Geo. O'Keefe as candidates for the Ontario Assembly. Bronson's nomination was unanimous, the vote for second place went 92 for O'Keefe and 86 for Ex-Mayor McDougall.

TRAIN on time leaving Calgary.

TELEGRAPH line down between here and Calgary.

COUNTRY and crops along the C. & E. line are looking grand.

Mrs. S. S. TAYLOR returned on the Northwest, from Saddle Lake.

DOMINION Day will be celebrated in Edmonton on Monday, July 2nd.

Mrs. C. GALLAGHER returned from a visit to Battleford on the Northwest.

JAS. WALSH purchased a lot of furs from James Aylwyn, of Holbrook, to the amount of \$22.05.

WINNIPEG city property increased as follows: 1870, \$200,000; 1890, \$450,000; 1894, \$23,000,000.

Two head of cattle died Tuesday night on P. T. Flynn's farm, sec. 12, township 55, range 25. Anthrax or "Black leg" supposed to be the cause.

MR. CASMELL, of Saskatoon, arrived by steamer Northwest. He goes to the Sturgeon settlement to take charge of the Church of England Mission.

JAS. WALSH and W. B. Stennet, fur buyers, have gone to Lake St. Ann's on a business trip. They expect to meet some traders from Fort Jasper.

J. R. DIXON of the Alberta Dining Room has taken up a farm and will leave the dining room shortly. The indefatigable Frank Maraggi will run it as before.

FATHER Desroches, of Egg Lake, is gone to Calgary to attend the service of the church. It is rumoured that he will not return to this neighborhood.

Mrs. G. JOHNSON arrived on Monday evening's train from Calgary to join her husband, G. Johnson, contractor, who came up this spring and decided to remain here.

JAS. CLIMAND has secured the contract to renovate the building belonging to Donald Ross, and known as the old Imperial bank. It will be fitted up as a dwelling house.

W. DEWAN, who has the government contract for 200 tons of coal, to be delivered at Battleford, arrived on the Northwest. The steamer will load up the coal from a seam about 12 miles up the river.

The ice cream social in the Salvation Army barracks on Monday evening was fairly well attended. Ice cream and cake were plentifully supplied, and those present spent an enjoyable evening.

ALL the French population of this district have been invited by the Edmonton St. Jean Baptiste Society to celebrate the national festival on the 24th inst. There will probably be a large gathering in town on that day.

SEVENTY-two settlers left Calgary by Monday's train, most of whom got off at points along the line. Twenty including women and children came on to Edmonton. The latter are from Washington Territory, Dakota and Minnesota.

MR. J. C. F. BOWY, of the firm of Bown & Prince, barristers, Edmonton, has been granted a "character as magistrate" authorizing him to take declarations to be used before the pension agency at Washington for the claims of all the old American soldiers entitled to pensions and living in the Northwest Territories.

At the sound of a steamboat whistle yesterday morning at about 9:15 the citizens were seen hurrying from their respective places of business to the river bank in the rear of Jasper avenue. The steamer "Northwest" was in sight, displaying her hunting. She put ashore at Fraser's mill and afterwards proceeded to the upper landing of the H. B. fort. A number of passengers were on board. Some machinery for Moore & Macdowell constituted the main part of the cargo.

DURING the thunder storm last night the "Cliff" house, the property of W. S. Edmonston, was struck by lightning. The current appears to have struck the roof near the chimney, and spreading ran down on either side. Several patches of shingles are torn up. Two rafters on each side are literally shivered, and two of the collar beams are torn off. In the east bed room upstairs a quantity of plaster was thrown down and some lathing forced away from the scantling, while on the outside about 6 feet of the siding is displaced. There is also slight damage to the west room. In the east room downstairs a considerable area of plaster is down, and the window facing on one side of each window is torn away and splintered. Some of the casing outside the front door is torn off and the siding above the door charred. There were two girls alone in the house, but fortunately the room, in which they were, was not in the direct line of the electric current. The girls were, however, more frightened than they can describe. The amount of damage done has not yet been estimated.

J. A. McDougall purchased \$1,400 worth of fur in three lots.

JAS. WALSH purchased a small lot of furs from J. Belrose, value \$20.

HEAVY thunder storm last night accompanied by a good fall of rain.

DON'T forget the sale of furniture at the Raymond hotel at 2 p. m. on Saturday.

Mrs. HANNA, accompanied by her brother, Mr. J. Dolmage, leaves for Souris, Manitoba, by to-morrow's train.

RENAUD & KIEL have secured the contract for painting the "Mansion House", the new hotel at Fort Saskatchewan.

The lower ferry was carried away from the cable this afternoon, by a raft of logs for Fraser's mill. The ferry was taken ashore above the mill.

MEMBERS of the "Societe St. Jean Baptiste" are requested to attend a meeting on Sunday next in the C. M. B. A. building at 2 p. m.

JAS. WALSH returned from Lake St. Ann's last evening. On his way in he purchased a lot of furs, from H. McKenney, Big Lake, value \$65.

THE Mounted police have been instructed to deal with the "black leg" and are authorized to employ help to bury or burn any dead animals, owners of which cannot be found.

CHAPMAN with a party of 5 or 6, lately from B. C., started a few days since with a pack train for the Yellow Head pass. They are prospecting and intend if possible to reach the Chilcooten country by fall.

THE examination in religious knowledge conducted by the Rev. R. A. Munro at South Edmonton on the 2nd inst., resulted as follows: Edna Sutherland, 2nd Helen McCarthy, 3rd Ethel Bissett. Prizes will be given.

A DECLINE in the following furs sold at the Lamson fur sales, London, on the 4th and 5th inst. Mink 20 per cent, Lynx 12 1/2 per cent, Otter 7 1/2 per cent, Black Bear 5 per cent, Red Fox 10 per cent, as compared with the March sales. Brown Bear advanced 20 per cent and Northern Wolf advanced 10 per cent, Beaver steady.

THE first weekly meeting of the Edmonton Bicycle club was held on the track on Tuesday evening. In the 1/2 mile race Dr. Goodwin beat McIntyre. Goodwin, McIntyre, Fairbanks, Dick Heimick and Fred Ross were the competitors in the mile race. McIntyre 1, Goodwin 2, Dick Heimick 3. The 1/2 mile was not run. Next week will be 2 and 5 mile competitions.

"WOODLAWN" the residence of S. S. Taylor, Q. C., has just been renovated by Renaud & Kiel. The suit of rooms on the first floor have been beautifully decorated. The walls are painted a pale peach with cream ceiling, finished in oil fresco work, original design with English ivy, roses and creepers entwined in the panelling. The cornice is of silver and a blend of six shades of green. The whole does great credit to the artists.

YESTERDAY W. B. Ibbotson, T. G. Lauder and F. Mariaggi chartered the "Northwest" for a trip up the river. Posters were got out during the afternoon and in the evening the hand of the Edmonton fire brigade, in a rig drawn by four horses paraded the town, and displayed a banner advertising the trip. Fare \$1.00. Excursionist being requested to take their own refreshments. Some 150 of our citizens took advantage of this and left for their picnic at about 10 a. m.

THE DETERIORATION OF WHEAT.

The greatest problem in milling is the general improvement of our wheat. As the quality of one milling system and machinery has improved the quality of our wheat has deteriorated. There is much truth in the boast of old millers that good stone flour of a quarter of a century ago would compare favorably with the average of roller flour now. It is as true that the wheat of the present could not be handled at all now with crude apparatus of the old system as that really good wheat produces much better flour now than good wheat did by the old process. In the older States the soil has become, or is becoming, exhausted, the berry is not so plump nor its nutrient qualities so strong. American farming methods have been careless, and tons of the richest material have been taken off the lands where pounds have been put back into them. The principal reason why spring wheat flour is stronger in gluten is owing to the virgin richness of the soil. But even now deterioration is evident in the older spring wheat districts, and the time will surely come when the spring wheat will lose its pre-eminence for strength, as it has successively been lost by some of the States. Climate may modify this somewhat, but it cannot prevent the final deterioration of wheat in all sections unless farmers become wise, and apply measures that will keep up the strength of their soils.

SIBERIAN WHEAT.

The word Siberia awakens no pleasant associations in the European mind. It at once conjures up a vision of a long train of prisoners wending their dolorous way across bare plains under the lash of the brutal Cossacks. Yet in some respects this popular estimate is altogether wrong. Geographers have long been aware that Siberia is a country of very varied resources. This is what that eminent explorer, Baron Nordenskiöld, has to say on the subject. "Siberia surpasses the North American continent as to the extent of cultivable soil. The Siberian forests are the largest in the world. Its minerals resources are immense, its climate, except the Tundra and the Northwest forest region, is healthy; and as favorable for the culture of cereals as any part of Europe." The difficulty has hitherto been to approach this region of natural wealth, as plainly the tedious land journey to Siberia through Moscow is, in the absence of railways of no use to the British merchant. An answer to this problem seems to have been found by the enterprise and energy of Captain Wiggins, a bold Yorkshireman, who, after sixteen years of practical voyaging, has shown that a comparatively easy and expeditious communication between England and the heart of Siberia is in existence. It would appear that a vessel leaving the port of London at the end of July may confidently reckon on discharging a cargo at Karaoul, a port nearly 200 miles up the mouth of the Tenisei, the great waterway of Siberia, and on being back to London without any hindrance from ice floes in the Arctic sea (which it will necessarily traverse) by the close of September. Captain Wiggins has made since 1874 fifteen voyages into these parts, but only one has he encountered any ice in his course, and that was when his departure had been delayed too long. The river Tenisei, which flows into the Arctic sea, is navigable for about 2,000 miles that is, nearly as far as the frontiers of China, and is provided with many affluents, several of which are also navigable, moreover, another great river of Siberia, the Obi, which empties itself not far from the mouth of Tenisei, is likewise believed to be navigable for a considerable distance. With but one transshipment goods can, it is affirmed, be cheaply and quickly forwarded from England to the heart of central Siberia in something like six

weeks. There should be every prospect of a sensible current of trade setting in between the two lands, and if such should be the case, there would be every likelihood of our drawing some supplies of wheat from this great fertile region. The wheat of Siberia has a good name in Russia, and some of it is said to have a likeness to the wheat of the Canadian Northwest. Before long our millers may be in a position to judge samples of Siberian wheat with their own eyes.—London Miller.

NORTHERN JUDICIAL DISTRICT.

A copy of a letter bearing on this important subject and noticed in our last issue as having been received by Mayor McCauley is given below:

Ottawa, May 26th 1894.

MAYOR McCauley,
Edmonton, N. W. T.

DEAR SIR:

A copy of the resolution of the people of Edmonton, re the establishment of a Northern Judicial district, reached me a few days ago. As the department of justice purposes removing a judge from McLeod, this is a matter in which the people of Lethbridge and the Southern district are much interested. As a consequence a delegation from the South composed of Mr. McKenzie from McLeod, Mr. Bently, President of the Lethbridge Board of Trade, and myself, in company with Mr. Davis, waited on the Deputy Minister of Justice a few days ago. His department appeared to be thoroughly convinced that there are more judgements than the country requires, and he positively told us that a new district would not, at the present time be created, and the present judges would be so shifted as to give the best possible service. I regret to have to give you this information and trust it will only be a short time until they will see that the public requirements necessitate a judge in your district.

Yours Truly
C. MACRATH.

FORT SASKATCHEWAN, ALBERTA.

Yesterday (Sunday) a large excursion party under the auspices of the St. Jean Baptiste Society arrived here from Edmonton per steamer "Upas," a number also came by road. Those who came down the river report having had a most delightful trip, fine scenery, good stage of water, and no mishap of any kind. The Edmonton band accompanied the party and enlivened everything with some good music. On the arrival of the steamer about 10 o'clock all the excursionists marched, in a body, to the church when the Rev. Father Dorais preached a good sermon, and the choir assisted by the band, rendered a very pleasing musical service.

At noon a nice luncheon was served, picnic fashion, in the grove in rear of Mr. Joseph Lamoureux's house and at 1.30 p. m. everybody crossed by the ferry to the barracks side of the river. The band played a number of airs in front of Supt. Griessbach's house, from there proceeded to the "Excursion House" which is nearing completion and will be a credit to the builder, to the tenant and to the town, supplying the long felt want of proper hotel accommodation on the south side of the river. On the north side of the river is the Saskatchewan hotel, owned and occupied by Mr. Xavier St. Jean, which would be a credit to many large sized towns in the East. Hence the travelling public will hereafter have nothing to complain of in this direction.

It is difficult to give special credit to everyone who took a prominent part in the excursion, but we cannot but notice Mr. Roy, the President, Mr. and Mrs. Marriaggi, Mr. Prince M. L. A. Dr. and Mrs. Royal, Mr. and Mrs. Jules Royal, Mrs. Larue, Fairbanks, Brosseau, Gibbons and Gariepy of Edmonton. The Rev. Father Dorais, Mr. Xavier St. Jean and his brother Ernest, Messrs Derome, Chabot, I Lamoureux, Dorais and Godbout of Fort Saskatchewan were among the leading spirits of those who received and looked after the welfare of their Edmonton friends.

It is hoped that it will not be long before another excursion will be organized and that the same pleasant weather and enjoyment will be had.

The Steamer "Northwest" is expected to pass here to-night or to-morrow.

Loads of household effects keep passing through here to the country east of us. Crops of all kinds never looked better at this season of the year.

Building operations are still brisk. Five more new buildings will be commenced shortly.

4th June 1894.

FLOODS IN BRITISH COLUMBIA.

The Fraser river at Westminster is still rising. At North Bend the water is a foot above the mark in the great floods of 1882. The warm weather continues and there is still a large amount of snow in the mountains. The river may be expected to rise some higher. Steamers are all busily engaged in rescuing settlers and cattle. An idea of the depth of the water may be gathered from the fact that a steamer drawing six feet passed over several islands in the centre of the channel of the river Wednesday night. The water reached fourteen inches over the track near Mission, and no trains were dispatched yesterday. No mails have been received here for eight days. A fund has been started here to assist settlers who have lost all by the floods. It is no uncommon sight to see the houses and barns floating down the river. Reports of the drowning of some Indians have been received but cannot be verified. Many are homeless.

Fraser river rose ten inches at New Westminster yesterday and last night the water was three inches above the historical high water mark. The flood is still rising. From points further up the river come reports that the river is nearly two feet higher than has ever been known. The Fraser valley for 100 miles has been inundated. It is estimated that over 2,000 families are homeless and that a property loss of fully \$3,000,000 has been suffered. Steamers from the river and Puget Sound are still being pressed into the work of rescue. Though no more lives have been lost during the past two days there have been many narrow escapes and thrilling experiences. Many families have been driven from their houses.

The damage to the Union Pacific tracks between Portland, Ore., and Umatilla will reach into hundreds of thousands. Great damage has been done to farmers living along the Columbia river in the loss of crops and stock. Portland thus far felt but little damage, owing to the slow and gradual rising of the water. Merchants had ample time to get their goods out of the way. The latest intelligence from the Upper Columbia region was that the river at Umatilla and Riparia was stationary. The Western Union lost all wires to the north, and Seattle and Tacoma are virtually cut off as far as telegraphic communication is concerned.

Later reports from the headquarters of the Columbia indicate a still further rise of one foot. Arrangements have been made for carrying the eastern mail over the Northern Pacific, which preserves through connection by means of a transfer boat.

Mr. Shaugnessy, vice-president of the C.P.R., speaking about the floods in British Columbia, said: "The position of affairs is much improved on the coast. The water in the Lower Kicking Horse pass has fallen a foot and is also a foot lower in Eagle pass and in the Selkirk. The Fraser and Columbia rivers are still rising, but we do not anticipate any further serious trouble. The bridge across the Columbia was not injured by the flood. Trains are now moving over all the Pacific divisions except for a short piece between Agassiz and Ruby creek, where transfers will have to be made for a day or two until we can put in a structure."

Maxim the inventor of the Maxim Machine gun, has brought out a very thin steel plate, to be worn as a cuirass, which is proof against bullets fired from the modern high velocity rifles.

The late Sir Francis Johnson, Chief Justice of the Superior Court of Quebec, who died in Montreal on the 27th May, was Recorder of Ruperts Land, and resided in Fort Garry from 1854 to 1858.

Miss Frances Willard announces that owing to the financial stress in the United States she returns to the National Women's Christian Temperance Union her last year's salary, which she has received as president of that organization.

AS OTHERS SEE US.

Of Edmonton itself no one can say anything but good. In a business sense it seems more permanent than any other place west of Winnipeg, except Calgary perhaps. Its location is one of the most strikingly beautiful that can be imagined. It was just at sunset when Mr. Frank Oliver, the proprietor of the Edmonton BELLETTIN, drove me to the bank of the Saskatchewan, which separates the railway station from the town proper. A more glorious view could not be obtained, it seems to me, anywhere in America. The Saskatchewan, even so far north and west, is a mighty river. We were on a ridge surrounded by trees and on a high bluff opposite was the town, beneath us, the river and the old-fashioned ferry; above us for a couple of miles were the great trees that shadow the waters and the ice-clad shores; below, great bluffs and mountains and distant hills, all bathed in the yellow light of sunset. Edmonton is a place that every visitor in the Northwest should see. In a miniature style it is like Toronto, a place of homes. People who have settled there seem to have made up their minds to stay and have made themselves comfortable, and architecturally the houses, large and small, are pretty and have trees about them, and trees are what one misses most in the prairie country. I was driven to see the big lumber mills, the brick kilns, and all those institutions which go to make a town solid and to provide material for building it up in a proper way. Then we went to an Oddfellows concert and heard as good music as we could hear in Toronto, and saw as gay a scene at the dance which followed as one can see here. Whether it was the kindness and attention of the gentleman who showed me the place or a number of fortuitous circumstances, or some of the odd things which brighten the vision of a traveler I know not, but I left Edmonton thoroughly convinced of its solidity and the attractive features of the great stretch of country which surrounds it. It was the head of navigation in the old Hudson Bay days, and the memory of a visit to it is a sort of a mixture between a reminiscence of Quebec, a ride through Calgary and a quiet day in dear old Toronto.—Toronto Saturday Night.

The Manchester Ship Canal was opened by Queen Victoria on the 21st May. The procession drove through eight miles of streets. Hundreds of thousands of people led the way.

London, June 1: In the Commons today, Herbert Gardiner, the president of the board of agriculture, announced that the experts who had been examining the carcasses of animals landing in the steamer "Toronto" on May 20th and from the "Laurentian" on May 23rd, had reported that there was no doubt that some of these animals were affected with pleuro-pneumonia.

In consequence of the determination of the British government to prevent the landing of Canadian live stock in England, which is believed here to be due rather to fear of competition on the part of British farmers than of the importation of disease, active steps are being taken to promote the export of dressed Canadian meat from Quebec to Liverpool. A company has been formed, headed by the president of the Canadian Live Stock association of Montreal, to erect abattoirs and cold storage refrigerators, etc., in Montreal, at a cost of \$500,000, and 1,000 men will be employed in these works, which will be in readiness by the time the new fast line of steamers to be built by the Canadian Pacific railway commences to run to Montreal, which, it is hoped, will be early next year. Five thousand to ten thousand side of beef will then be shipped weekly to England.

ANTHRAX OR "BLACK LEG"

The following telegram has been received:
 OTTAWA, Ont., June 2nd, 1894.
 To F. OLIVER, M. L. A.,
 Edmonton.

Perfect extirpation of anthrax virus requires burning bodies of all dead animals. Have telegraphed instructions to Commissioner of Mounted Police.

I. LOWE,
 Deputy Minister Agriculture.

BOARD OF TRADE.

A meeting of the Council of the Board of Trade was held in the Town Hall on the 5th inst.

Minutes of a meeting held on May 11th were read and confirmed.

The correspondence, regarding the appointment of a judge for Northern Alberta, from the Ministers of Justice and Interior and Mr. Davis, M. P., was read, from which it appears that there is little probability of an appointment being made for some time.

Moved by W. J. Walker, seconded by T. W. Lines, that the dairy commissioner be requested to make special effort to visit Edmonton district accompanied by the traveling dairy and staff. Carried.

Telegram to the President from the Deputy Minister of Agriculture was read, informing the board that the Mounted Police had been instructed to take measures to stamp out the disease of "black leg" alleged to exist in the Stony Plain settlement.

Moved by C. Strang, seconded by W. J. Walker, that the Department of Agriculture be requested to appoint a duly qualified Veterinary Surgeon to deal with the cases of black leg alleged to exist in the district. Carried.

Moved by Cameron, seconded by Lines, that Mr. C. W. Haworth be recommended for the above position. Carried.

Moved by Strang, seconded by Lines, that the Lieutenant-Governor be requested to appoint to once a board of health for the district of North Edmonton alleged to be infected with diphtheria.

Moved by Strang, seconded by Cameron, that the Secretary be instructed to reply to the Lethbridge board of trade re "prairie fire break machine" and inform them that we are writing the N. W. government asking them to take what action they deem best in the matter, and that we endorse the idea that some cheap and efficient means of erecting a "fire break" is necessary.

Communication from C. C. Chipman, commissioner of H. B. Co. to P. Heimink & Co. regarding public park, offering the council of the board of trade, of 27 acres of land on the "Hudson's Bay Flats."

Moved by Blower, seconded by Walker, that the President, the Secretary and Messrs McDonald and Lines be a committee to meet the representative societies and clubs interested in a public park and confer with them with a view to bringing the matter before the Town Council to solicit their co-operation in the matter.

Moved by McDonald, seconded by Strang, that this board memorialize the Department of Interior asking that the grounds about the government building be improved in such a manner as to introduce plants and shrubs from the experimental farm and that a copy of this resolution be sent to the Hon. T. M. Daly and Mr. H. H. Smith.
 Meeting then adjourned.

A Toronto dispatch says: Holders of Manitoba wheat have all very strong, and are asking more money for it. They are indifferent sellers, and to use the words of local buyers, they are sitting on their wheat. They say the stocks of Fort William are small, and as it will be four months before new wheat begins to offer here, higher prices are certain. They consider the outlook for Manitoba wheat better than any other.

Winnipeg Tribune: Chas. Braithwaite, of Portage la Prairie, president of the Manitoba Grand Lodge of the Patrons of Industry, returned west on Monday evening. So the Patrons intend to enter the political field in this province at the first opportunity. "Well, in the interests of the farmers, we must seriously consider the question as one of vital importance to their welfare and place candidates in the field, in case a vacancy occurs." "But have you not called several meetings?" "No. Three meetings have been announced for the purpose of discussing the advisability of nominating candidates, that is all. As soon as the writ is issued for Beautiful Plains we will hold a meeting in Neepawa."

Winnipeg Tribune: The ninth anniversary of the engagement of Frenchman's Butte was pleasantly commemorated in Albert hall by the members of the Ninety-first battalion. Many persons will recall the famous march of this regiment in connection with General Strang's flying column from Calgary northward to a distance of over 400 miles. Happy speeches were made by Rev. Canon Pentreath, Capt. Lawlor and Vallancey, and Messrs. Nesbitt, Rice, Penny, Graham, Black and Conley. The chairman in proposing the toast of the Sixty-fifth, of Montreal, referred to the recent courtesy shown them by a portion of the Ontario press and took the occasion to testify to the admirable conduct, bravery and enthusiasm shown by them during the campaign. W. J. McLean, in responding to the toast, after briefly alluding to the sixty-one day's captivity of himself and family in the camp of Big Bear, and making a graceful reference to the exertions of the Winnipeg Light Infantry to release them, took occasion to exonerate himself from Inspector Dickson's charge that he (McLean) had caused the loss of Fort Pitt.

GENERAL NEWS.

The two steel bridges over the Stony Creek and Salmon, now about complete cost in the neighborhood of \$150,000.

Free Press: Professor Robertson, Dominion dairy commissioner, speaks hopefully of the dairying interests of Manitoba and the North-West.

Northwest Gazette: His Honor the Lieutenant-Governor-in-Council has been pleased to appoint Mr. E. F. Grover of Regina, Assiniboia, to be a Division Registrar for the Registration District of North Regina vice Thomas Brown, deceased.

While the Canadian Pacific train from Quebec was coming towards Montreal a few days since at the rate of 35 miles an hour, a little boy fell out of a car window, but to the surprise of all, when the train stopped and backed down, the youngster was found unharmed.

Free Press: T. E. Sheppard, the murderer of May Buchanan arrived May 31st from Edmonton in charge of Deputy Sheriff Robertson, Corporal Dunn and Private Stockton. Sheppard was lodged last evening in the provincial goal. Deputy Sheriff Robertson is staying at the Clarendon.

Free Press: On the 28th ultimo at Prince Albert, N. W. T., Superior General Soulier, O. M. I. assisted by Bishop Pascal and fifteen Roman Catholic clergymen, surrounded by an immense crowd of people and with impressive ceremonies, laid the corner stone of the new Bishop's palace there.

William Hine, once the champion wing shot of Manitoba, is reported to have broken all European records and is now champion of Great Britain and the continent. One of his recent feats was the killing of 100 pigeons without a miss. This is phenomenal shooting, and is far ahead of the best Old Country records. Hine has settled permanently in England, and his Winnipeg acquaintances will be glad to hear that he is not only gaining distinction as a good shot, but is prospering in his business as a taxidermist.

Over 3,000 people assembled at Central park last night to see the much talked of wrestling match between Sandow, the perfect man, and Col. Daniel E. Boone's tame lion Commodore. Commodore was muzzled, his paws were encased in big boxing gloves, and he was so handicapped that free action was almost impossible. When Sandow entered the iron cage the lion was lying on all fours, and no amount of teasing could get him to stand or lose his temper. Sandow lifted him from the ground and swung him around and around, but it was of no avail. After ten minutes of this farce the match was given to Sandow. Boone was in the cage all the time with a pistol in each hand.

The Reasons Why

It will pay you to buy from the H. B. Co.'y.

Because our Boots and Shoes are manufactured specially for us by the best Canadian and American makers.

Because at the prices we sell them they offer the best value for your money.

Because for men's wear they are the cheapest and most durable.

Because for ladies' wear we show a more complete and varied stock than any house in town.

Because for Misses, Boys and Children our stock is complete.

Because for all we offer you a choice, whether you aim at appearance, ease or durability, or a combination of all these qualities.

We are offering special lines of Bicycle and Tennis Shoes.

Each change in weather as the warm season approaches brings with it the necessity for a change of headwear. Just now we want to sell you

Straw Hats.

Gentlemen—Before purchasing elsewhere call in and price our Straws. They are this season's newest shapes, and like our Felts are the lowest in price offered here.

Ladies—We have the daintiest and prettiest shapes in Sailors' and Fancy Straws at marvelously low prices. The same may be said of our Girls' and Child's Sailor Straws, which for value defy competition.

Cowboy Hats.

We have just opened our J. B. Stetson No. 1 quality Men's Cowboy Hats. These Hats wear well and keep their shape. Don't be deceived with imitations.

Athletes and Cyclists

Buy your Suits, Caps, Jerseys, Shirts, Belts and Stockings, etc. from us and save your money by doing so.

Dress Goods.

There are still a few of those costume lengths left. They are the latest, and if you require a dress, one can be secured very cheaply by purchasing from us.

Soon the cry will be "Oh, this sultry hot day." Be ready for such days and have one of those light beautiful dresses from our stock of all wool Delaines at 25cts. a yard, cotton Pongees, you can scarcely tell when made from silk, at 17cts. a yard. Zephyrs, Scotch Ginghams, Lawns in colors and Cashmerettes in black grounds, with the sweetest patterns in Sprays at 17c. a yard.

These goods make ideal dresses, beautiful in appearance and economical.
